Hi there, I sent this letter to Courtenay Council, but wanted to ensure that it was received by legislative services and noted for the record.

Thank you

I am in favour of solutions that are supported by [REDACTED] and her family, as well as those that minimize costs to both her and the city.

However, it is disappointing how long this took to address, given that the issue of the lengthy decommissioned road and dead end, and the constraints of the city's own regulations and bylaws are all problems of the municipality's own creation. Furthermore, the issues occurring here also point to a need for improved community coordination and cooperation between city staff, police and the local SD71 to address, prevent and remedy the anti social and criminal activities.
