

## PROPOSED EV Charging updates 1590 Piercy Ave

EV Charging will be available for all the 9 independently owned strata units. Each of the 5 charging Towers will be located between two parking stalls. Each tower will have two 240 volt plug in units, allowing independent charging connected to the corresponding housing unit.

Charging cables will be supplied by the car owner to ensure the correct charging cable is available. An additional charging station will be available for the guest parking stall. This unit will be connected to the strata managed power meter.
