

# P E T I T I O N

BC Housing, City of Courtenay Mayor and Council:

Our neighbourhood group, 925 Braidwood Neighbours, a grass-roots organization of 350-plus residents, workers, and business owners/operators, agrees that supportive housing enriches the lives of the marginalized in our community.

Supportive housing residents need resources that teaches them new life skills that will help them to become stable, productive and active members of the community where we all live.

The inevitable contact with shelter residents could seriously threaten the progress of supportive housing residents in their day to day lives.

The influence of some of the people using the shelter could seriously hinder their recovery and be detrimental to their pursuit of life skills needed to live a more productive life.

A serious concern we have with the 925 Braidwood location for the homeless and warming shelters is a significant threat to the safety of the shelter clients and the drivers/motorists on Ryan Road.

The safest and most advantageous location for the homeless/warming shelter is not 925 Braidwood. The 925 Braidwood Neighbours group represent a great many Comox Valley residents who urge you to re-consider the current plans, and to re-zone only for supportive housing. This decision would benefit the whole community.

925 Braidwood Neighbours.
